DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the essential difference from the prior art is segmenting a difference image into a plurality of regions utilizing a grouping principle for *attentive perception*. Each of the regions are bounded by lines passing through the entire image. Here, "attentive perception" was interpreted as a process that uses "previously acquired knowledge in order to perceive an object in an image" as explained on page 9, lines 13-17 of the applicant's specification. Moreover, attentive perception may be based on the perception of the human shape, for example, by assuming people appear in an upright position in an image sequence. (Applicant's specification page 9, lines 13-14 and 23-25). These features in combination with the other elements of the claim and the base claim are not disclosed or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
